### Eriez® Aftermarket PM RE Drawer Magnets Now Available Through *ProGrade*® Magnetic Separator Program

Erie, PA--- Eriez® [Aftermarket Model PM Rare Earth \(RE\) Drawer Magnets](#) are now a part of the company's [ProGrade® line of Magnetic Separators](#). Like all *ProGrade* products, these Aftermarket Drawer Magnets are available for quick shipment. Eriez' PM RE magnets are up to 3 times stronger than competitive RE magnets and 50 times stronger than many ceramic magnets.

Eriez Aftermarket PM RE Drawer Magnets—available in four sizes—are installed in less than five minutes and can even be used with mild steel housings because of their unique guide-rod design. Other advantages include close tube spacing for more effective ferrous removal and their ability to handle resin temperatures up to 250 degrees F., while improving separation performance and helping to keep equipment running smoothly. Adhesive backed gaskets are included for installation on the door or housing.

Eriez Aftermarket PM RE Drawer Magnets capture and hold fine and weakly magnetic particles, preventing plugged valve gates, machine damage and equipment downtime.

The Eriez *ProGrade* line includes high quality, low cost standard magnetic plates, grates, traps and tubes that are in stock and available for immediate shipment. *ProGrade* series professional grade magnets are available at three different degrees of magnetic strength, enabling professionals in diverse industries to choose the ideal level of protection for their specific application. Eriez offers *ProGrade Ceramic* series, *ProGrade Rare Earth* series and *ProGrade Xtreme* series.

To learn more about *ProGrade* Aftermarket PM RE Drawer Magnets or any other *ProGrade* product, visit <http://en-us.eriez.com/Products/ProGrade/> or contact Eriez and request brochure SB-460.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, plastics, rubber, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit [www.eriez.com](http://www.eriez.com) or send e-mail to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
